
OUR PHILOSOPHY

Selecting the best local company-projects & partners for your investment or business strategy.

Alternative and Capital Risk investments offer high growth potential and attractive tax benefits when investing in eco-systems; smart cities; small EU companies; tech and bio sectors.

GO GLOBAL. BE LOCAL

Investment counseling services to foreign investment funds or boutique banks or institutional investors to tailor-make their portfolio, selecting companies - startups or projects in Spain-Europe and emerging markets.

Specialised in Brazil, China, India, Middle East and Africa.

Competitive Advantage in Investment Law Practice and Business Development

ARIZA
• Capital&Law

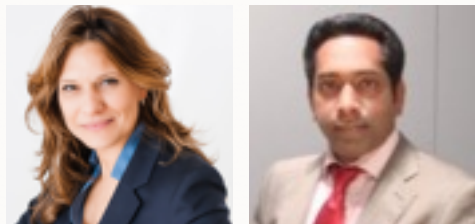

ARIZA Capital & Law Advisors is an Investment & Law boutique for tech & eco companies or projects in Spain - Europe and emerging markets.

Specialised in:

- *water-energy
- *biotechnology
- *smart cities

We are a multidisciplinary team engaged with social responsibility for stakeholders and sustainable growth

The main asset of our firm is our team and local partners in those countries where we have investment projects and/or clients.

ARIZA C&L counts with professionals with extensive international knowledge and experience in the field of law, finance, technology and research in biosciences.

We create, with local partners and clients, value-added and tailor-made investment-instruments and projects.

This advisory service is always based on deep analysis and knowledge of the evolution and trends of the market.

Common sense, tax-advantage investing & social responsibility are also part of our philosophy.

Our clients are individual investors, private equity banks, or private equity/venture capital funds, institutional investment agencies, countries, cities, foundations etc...

INVESTMENTS FOR GREEN & BLUE GROWTH

Our purpose is to give counsel to funds, government institutions, company-supporting initiatives or projects that promote innovation and technology. Our main areas of interest are Urban & Touristic development -'Smartcities'-, Innovative Water and Energy resources and Biotechnology.

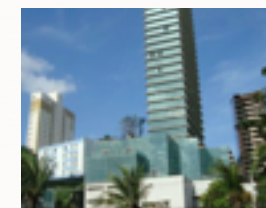

URBAN DEVELOPMENT: SMARTCITIES: **BRASIL.**

Creating eco and green urban areas with the support of environmental and historic official agencies; social local institutions and infrastructure programs such as PAC in Brazil.

Investments for these projects came from English, Spanish and German private equity funds; also private Brazilian and Spanish investors, complemented with local bank financing.

Cloc Marina Residence.
Historic coastal restoration

VITRAUX medical center
green building

WATER & ENERGY RESOURCES: **SENEGAL. SPAIN**

Development of rural and urban areas for safe water and energy supply is one of our main sectors of experience. Investments were local and multinational: BAD, UE, BM etc..

We followed all the tender proceedings, negotiated the contracts as well as created the legal infrastructure (corporate, labor and fiscal with local partners) to implement the works.

Water deposit in Thies.

Solar panels. Spain.

INNOVATION PARKS AND BIOTECHNOLOGY: **CHINA. SPAIN**

Promoting the development of tech and bio parks worldwide, selecting innovative companies or patents.

We advised managers of the eco-city on presenting their City Investment Guide and annual congress, and selected the companies and partners of interest and investment for projects .

Jeiyang. Metal Eco City
